

## **EgertonNP Policy D6 - Water Supply and Drainage**

**Any direct connection of new developments to the Egerton water supply and primary sewer network, and/or expansion to existing developments connected to the network, will only be supported if it can be shown by rigorous analysis that there is sufficient capacity in the local sewerage system and that the new connection will not increase the risk of system back up/flooding.**

**In cases where there is no possibility of connection to the primary sewer network, the developer should provide a private site-specific solution to manage drainage and sewerage which meets relevant regulations and has no adverse impact on the community as a whole.**
