

## **Egerton NP Policy S2 - Recreation Space at Egerton Forstal**

**In the absence of any land being proposed specifically for public amenity or recreation, any significant new development that is proposed should include recreation and amenity space to serve everyone in the locality.**

### **Notes to support or explain this policy:**

This part of Egerton has no public amenity or recreation space.

At the open meetings over the past two years, a number of people have proposed that a site should be found for residents living in and around Egerton Forstal. The Neighbourhood Plan Steering Group is therefore actively looking for a suitable site and, if one can be identified, will allocate it in the final Neighbourhood Plan.

### **Question:**

**Do you support the proposal for recreation space in or near Egerton Forstal?**

**If you are a landowner would you be prepared to offer land for this purpose?**
